Token Distribution

Token Supply and Demand
Trading volume and pricing growth of BitCollar(BOR) will keep steady increase due to the constant demand,

Unsold Tokens
We will decrease the supply of our tokens in the event of not reaching our hard cap to protect the value for all our token buyers.

- **Name:** Bitcollar Token
- **Type:** ERC20
- **Symbol:** BOR
- **Platform:** Ethereum
- **General release:** 300,000,000 BOR

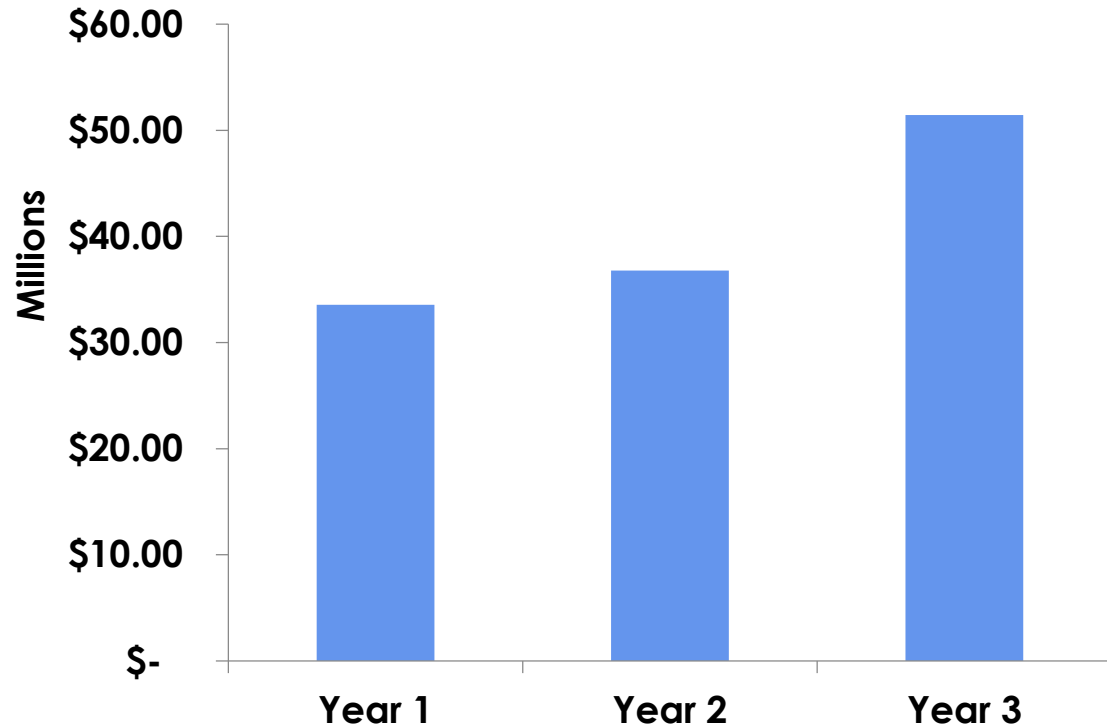

The BitCollar (BOR) is the essential liquidity currency underpinning the BitCollar ecosystem. All the fees charged on the platform and all the bonuses earned by users will be paid in BOR. As the business continues to grow, there will be increasing demand and decreasing supply for the BOR and token holders will benefit from the value appreciation.
